Highly Portable

With the lightest weight (2.4 lbs) and most compact footprint among leading AED's, easily fits into constrained spaces and transported throughout your venue

High Level of Protection from Dust & Water

IP56 rating, one of the highest ratings in the industry, enables both indoor and outdoor use

8 Year Warranty

AED is backed by an 8-year limited warranty

Low Cost of Ownership

A shelf life of 4 years means that the Pad-Pak may offer savings over other defibrillators that require separate battery and electrode replacements.

Two Parts, One Expiration Date

Each HeartSine AED comes with the innovative Pad-Pak, an integrated battery and electrode single-use cartridge with one expiration date, which offers one simple maintenance change every 4 years

HeartSine 360P

Fully Automatic AED
